

27 October 1964

NOTE FOR: Colonel White

1. Recommend your approval.

2. This is a request for authorization for a second round trip to the United States for medical examination and treatment for the dependent wife of [REDACTED]

25X1A9a

3. In November of 1963, you approved a memorandum requesting the initial travel of [REDACTED] in which it was pointed out that in order to staff a high priority overseas position [REDACTED] were authorized to proceed abroad even though [REDACTED] was suffering from a serious eye condition. It is our opinion that by authorizing such travel we obligated the Agency to ensure that adequate medical facilities and treatment were available to [REDACTED] as required. The fact that treatment initiated during the first trip to the United States proved not to be effective necessitates this second trip for examination and treatment.
